PECS Training Manual

by Lori Frost, M.S., CCC-SLP and Andy Bondy, Ph.D., 2002, 396 pages

The 2nd edition of this very popular training manual provides comprehensive instruction in implementing the Picture Exchange Communication System. Developed by Lori Frost and Andy Bondy, the goal of PECS is to provide individuals with an effective and functional method of communication. The training manual begins with a description of the Pyramid Approach to Education, which is the foundation for creating all PECS lessons. A detailed chapter on functional communication follows. Each of the 6 training phases is described according to rationale, training steps, frequently asked questions, helpful hints and sample data sheets. Extensive appendices provide reproducible evaluation forms, data sheets, reinforcer worksheets, and communication programming worksheets. **The PECS Training Manual has over 300,000 copies in print and is available in 11 languages.** Visit www.pecs.com for information on availability in other languages.

Universal NO Symbols

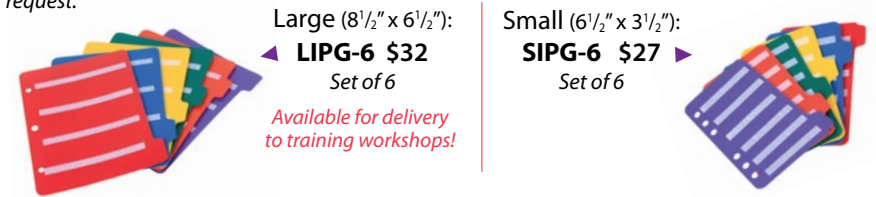

How to say "NO" and live to tell about it. One powerful visual strategy is the Universal 'NO' Symbol. These clear plastic symbols come in two sizes (1" and 1 3/4") and stick to your laminated symbols to signal that the item/activity is currently not available. The learner can see the original picture through this symbol. Remove the symbol when the item/activity is available. Reuse them as often as you need! This set includes fifteen 1" symbols and fifteen 1 3/4" symbols.

Discrimination Training Alternatives DVDs

This set is a must for any professional or personal resource library. Picture discrimination is necessary to increase independence in any environment. This DVD series provides instructors and parents with a valuable tool to achieve this goal! Phase III of PECS teaches picture discrimination within a functional, reinforcing context. These modules target alternative discrimination strategies to utilize if your learner has not mastered Phase IIIA. The series reviews the teaching protocol for Phase IIIA and the 4-Step Error Correction procedure. Throughout the DVDs, instructors and parents will learn alternative strategies that are easy to implement and require very little preparation. We discuss and demonstrate three "orientation" strategies to help learners who are not looking at the pictures, provide examples of ways to visually modify the symbols, and discuss successful strategies for visually impaired individuals.

Autism 24/7

by Andy Bondy, Ph.D. and Lori Frost, M.S., CCC-SLP, 2009, 169 pages.

If your son or daughter is over-stimulated by noisy places or has trouble communicating or interacting with people, then everyday activities like going to the playground or helping out with household chores may seem outside your child's repertoire. Authors Bondy and Frost, the founders of the award-winning Pyramid Approach to educating individuals with autism, show how it is possible to keep family life running smoothly and teach an individual with autism to participate in important and routine family activities at home and in the neighborhood. Their teaching strategies can be used during the course of everyday life without making too many adjustments or converting your home into a school. In a reassuring, easy-to-read style, *Autism 24/7* encourages parents to pinpoint times when their child's behavior or lack of skills seems to interfere with family functioning. This step helps identify what to teach your child and what goals to set.

A Picture's Worth, 2nd Edition **NEW!**

by Andy Bondy, Ph.D., and Lori Frost, M.S., CCC-SLP, 2011, 160 pages, 21 photos.

Written by our very own Andy Bondy and Lori Frost, *A Picture's Worth, 2nd Edition*, examines the value of nonverbal communication strategies for individuals with autism, and describes the Picture Exchange Communication System (PECS). Without the ability to express themselves, individuals with autism experience a high level of frustration, which is the root cause of many undesirable behaviors. The book explores the relationship between behavior and communication, teaching parents how to recognize patterns in their child's behavior and when to implement an augmentative and alternative communication (AAC) system such as PECS. This new edition cites research that proves PECS (and other AAC strategies) does not interfere with the development of speaking skills, and actually often provides a boost to speech acquisition. Thousands of people with autism and other speech disabilities have benefited from using PECS. The book's complete set of introductory lessons makes it easy for parents and therapists to get started using this low-tech strategy to help anyone develop effective communication skills!

The Pyramid Approach to Education, 2nd Edition **NEW!**

by Andy Bondy, Ph.D., 2011, 310 pages.

The Pyramid Approach to Education, 2nd Edition, presents Andy Bondy's integrative approach to teaching individuals with a range of educational needs, within any learning environment. This updated edition of the book guides professionals and parents toward asking the right questions and designing constructive answers as they develop powerful home, school and community-based programs. Frustrated by marginal student learning? New answers can be found in this book! In a straightforward manner it recommends how and what to teach to maximize learning. The final chapter of the book provides detailed examples of this approach with a number of students in various settings. The new edition is an easy read for anyone, reflecting Andy Bondy's acumen and experience while making the content accessible to all.

Lesson Plans

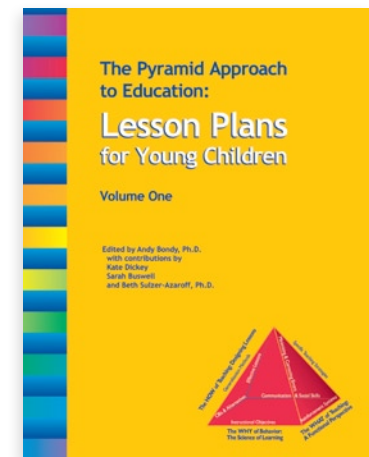

Edited by Andy Bondy, Ph.D., with contributions by Kate Dickey, Sarah Buswell, and Beth Sulzer-Azaroff, Ph.D. 2002, 127 pages.

This manual is the perfect resource for any individual who instructs learners. It contains close to 100 ready-to-use lesson plans to teach learners skills in the following life areas: school-based, communication, self-help, social, domestic, recreation/leisure, and community-based skills. This manual also assists teachers in writing additional lesson plans within the Pyramid Approach to Education framework by providing detailed explanations and examples. Each lesson was developed by teachers and specialists experienced in teaching learners with special needs.

Verbal Behavior

by B.F. Skinner, 1958, Soft Cover, 478 pages.

This book laid the foundation for the development of the PECS training protocol. The book presents a systematic functional analysis of language based on the principles of learning. Skinner proposes that verbal behavior requires an analysis separate from other behavior because it does not operate on the environment directly, but rather through other people in a verbal community. He describes several parts of communication defined by their relationship to specific antecedents and consequences, from the simplest features of language to its most complicated aspects. He also stresses that verbal behavior is defined by its function, not by its form- thus, for example, PECS permits any user to engage in verbal behavior. Read the chapter by Andy Bondy in the *PECS Training Manual, 2nd Edition*, (page 3) for a thorough discussion on PECS and *Verbal Behavior* and attend our workshop: *Analyzing and Fine Tuning Communication*.

Where Are We Going?

The *Where Are We Going?* book series is designed to help young children with or without developmental delays, feel successful, more relaxed, and more engaged in a community activity. This is accomplished using the *Tell and Show Before You Go™* method of teaching, a *simple story theme*, 16 pages of color photographs, and PECS picture symbols. The books involve and entertain while teaching the child appropriate social behavior, promoting verbal and non-verbal language, and sequencing the *transitions* in a *community activity*. Strategies related to each book's theme are provided to facilitate using the *Tell and Show Before You Go™* method of teaching and interactive reading.

Audio Reinforcement Reminder Tones CDs

Instructors who use Differential Reinforcement Systems will find these CDs essential. Pop a CD into your CD player, select the track according to the interval you need, and repeat the track for a continuous reminder to catch your learners "being good!" CD #1 has 1, 2, 3, and 5-minute intervals. CD #2 has 7 and 10-minute intervals. CD #3 has 15-minute intervals. Each track plays a distinct tone so that you can play more than one CD at a time for learners needing different intervals and recognize which interval is sounding. Each tone is activated on a randomized, variable schedule (the three-minute tone sounds on average every three minutes). These tones also are a great tool for instructors who are teaching individuals to monitor their own behavior.

We found these fantastic digital bookmarks for learners' activity schedules. Activity schedules are used to indicate the specific activities and order of activities to be finished within a particular lesson. For example, a learner's goal might be to complete several cleaning tasks in the kitchen, worksheets during class, or exercises during a physical education class within a specified time period. The timer promotes independent completion of the activities within a time period programmed by the teacher. The teacher reinforces the completion of all activities within the specified time and gradually reduces the time allowed until the learner reaches the final goal! We add a strip of VELCRO® Brand hook so that you can add your own pictures. At the top of these durable plastic strips is a digital clock powered by an included, replaceable watch battery. Choose to set a countdown timer with alarm that alerts learners when their time is up or set the cumulative timer to store time over multiple activities. *Pictures not included.*

Break, Wait, and Help Cards

All cards are made of a durable synthetic material to withstand heavy use.

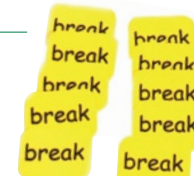

Wait Card: Andy Bondy and Lori Frost have developed this 5 1/2" x 5" card and a method of teaching the concept of waiting with visual support. Learners are handed the card when they are asked to wait. The card acts as a promissory note for the item/activity requested or anticipated. **WAI \$7**

Help Card: A companion to our Break and Wait Cards, the 2" x 3" Help Card is designed to provide a functional way for learners to request help in a calm manner. An instructional pamphlet is included with this durable hand-shaped card. **HLP \$5**

Break Cards (set of 10): Everyone needs a way to request a break. 2" x 1 1/2" Break Cards are an excellent way to teach all learners a calm way to do so. We include VELCRO® Brand VELCOINS® to attach wherever needed and an instructional pamphlet.

Set of 10: **BRK \$15**

Mini Set: Includes five 1 1/4" x 1 1/2" Break Cards, two 1" x 1 1/4" Help Cards, two 1 3/4" x 1" Wait Cards, VELCRO® Brand loop VELCOINS® and an instructional pamphlet. **MHB \$12.50**
