20 July 2011

Dear Lori Frost

This is to express our warmest gratitude to you for the generous support and donation that you have given us in our activity for children with Autism. Our activity, "Training and Workshop on Autism", conducted at **AutismCare Nepal** premises by **Knowledge for People**, was highly successful and we would like to express our sincerest appreciation to you for contributing to its success. The training was beneficial to parents, caretakers, teachers and different professionals working for children with autism. As one of our sponsors, the financial help and resources you extended to us were crucial for the activity to push through.

Our organization **AutismCare Nepal** (ACN) was founded on 2 April 2008 on the auspicious occasion of the World Autism Awareness Day. It is the only active autism organization in Nepal that is run by passionate parents that care for people with Autism. ACN provides support and information services to persons with autism and people who work with persons with Autism in Nepal. We aim to educate, aware and act for the rights of people with autism throughout Nepal. Since we are a non-government organization, we heavily rely on generous donations for our activities to push through.

Thank you so much for your support and we hope you would continue supporting our activities in the future. May you reap more success in your endeavors.

Respectfully,

Dr Sunita Maleku Amatya

Chairperson
